

	Arranger	UltraPrint	UltraDoc/Web	AIMS
Operating systems supported				
Windows 2003/2008 Server	⊙	⊙	⊙	⊙
Windows XP/Vista/7	⊙	⊙		

Scanning Services

TWAIN Support	⊙			
B&W, grayscale and full color scanning	⊙			
Scan into existing document	⊙			
Virtual Scan Session (continuous scan) for large documents	⊙			
Scan to print (copier emulation)	⊙			
Scan to database	⊙			
Scan to fax or e-mail	⊙			
Scan to file	⊙			
Batch Scan with Automatic Document Separation	⊙			
user-definable document separator pages	⊙			
to files with auto-incrementing filenames	⊙			
to database with auto-incrementing metadata	⊙			

Document Make-Ready Capabilities

Drag & Drop page reordering	⊙			
Drag & Drop page(s) between or within open documents	⊙			
Replicate page(s) within or between documents	⊙			
Cut, Copy, Crop	⊙			
Snap-To (image repeat)	⊙			
Batch Cut with Page Selector for include/exclude	⊙			
Batch Crop with Page Selector for include/exclude	⊙			
Batch Image Shift with Page Selector for include/exclude	⊙			
Auto-shift to align page(s) to preset point	⊙			
Batch Scale with Page Selector for include/exclude	⊙			
Batch Extract (extract single page from 2-up or book scan)	⊙			
Batch Logical Scale	⊙			
Batch Split (extract facing pages from 2-up or book scan)	⊙			
split on horizontal or vertical plane	⊙			
rotate and/or scale images during split process	⊙			
reorder for booklet/signature printing during split process	⊙			
Color Support	⊙	⊙	⊙	⊙
Highlight within page image	⊙			
Spot Color within page image	⊙			
Pen/Drawing Tool	⊙			
Unified Selection Tool	⊙			
Text Annotation	⊙			
Image Rotate	⊙		⊙	
batch rotate with page selector	⊙			

UltraWare Product Features

	Arranger	UltraPrint	UltraDoc/Web	AITS
Deskew/Despeckle	<input type="radio"/>			
Reverse Page Order	<input type="radio"/>			
Remove Blank Pages	<input type="radio"/>			
Flip Horizontal/Vertical (mirror image)	<input type="radio"/>			
Convert (bw, grayscale, color)	<input type="radio"/>			
Halftone image controls for color and bw	<input type="radio"/>			
Integrated Optical Character Recognition (OCR)	<input type="radio"/>			
Integrated Tab Maker (see below)	<input type="radio"/>			
Page Numbering during Printing	<input type="radio"/>	<input type="radio"/>		
control page start/stop and beginning number	<input type="radio"/>	<input type="radio"/>		
Roman and Arabic numbers	<input type="radio"/>	<input type="radio"/>		
continuous numbering for consecutive documents	<input type="radio"/>			
Skip numbering and/or printing on tabs	<input type="radio"/>			
Open multiple files as one document	<input type="radio"/>			

Tabs

Maximum size tab bank	26			8
Tab printing in four orientations	<input type="radio"/>			<input type="radio"/>
Define tab location at top, bottom, left or right edge of page	<input type="radio"/>			
Create new tabs and/or convert existing pages to tabs	<input type="radio"/>			<input type="radio"/>
Multi-line tabs with font type, size, and color control	<input type="radio"/>			<input type="radio"/>
Ability to add a bitmap image (with scaling) to tab	<input type="radio"/>			
Bleed-edge tab creation	<input type="radio"/>			<input type="radio"/>
Automatically scale tab to Letter-Tab or A4-Tab size	<input type="radio"/>			<input type="radio"/>

Variable Data Services

Apply Header/Footer w/alternating left/right margins	<input type="radio"/>	<input type="radio"/>		
Flexible numbering (see Make-Ready Capabilities above)	<input type="radio"/>	<input type="radio"/>		
Form Overlay/Watermark	<input type="radio"/>	<input type="radio"/>		
Multiple variable data regions per document	<input type="radio"/>			
apply to one or more pages	<input type="radio"/>	<input type="radio"/>		
variable data from delimited text file	<input type="radio"/>	<input type="radio"/>		
variable data from database query	<input type="radio"/>			
variable data from image file	<input type="radio"/>			
annotation sequence generator	<input type="radio"/>			
Font Controls for Header/Footer and Variable Text Rendering	<input type="radio"/>	<input type="radio"/>		
Export/Import overlay templates for reuse on other jobs	<input type="radio"/>	<input type="radio"/>		
Record chunking and variable spooling to regulate job sizes	<input type="radio"/>			
Integration w/ Group1 or First Logic for CASS & PAVE processing	<input type="radio"/>			

Print Services and Production Capabilities

Supports all printers via Windows drivers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Additional print capabilities with Custom Print controls (see below)	<input type="radio"/>	<input type="radio"/>		
Job routing to any available printer	<input type="radio"/>	<input type="radio"/>		<input type="radio"/>
Licensed per server, NO per printer licensing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

UltraWare Product Features

	Arranger	UltraPrint	UltraDoc/Web	AIMS
Finishing support	⊙	⊙	⊙	⊙
Job level error recovery	⊙	⊙	⊙	⊙
Multiple jobs RIPed and spooled simultaneously		⊙		
Ability to move/copy jobs from one queue to any others		⊙		
Maximum number of print devices attached to job-split cluster		4		
Job-splitting based on user-definable thresholds		⊙		
Job-splitting based on number of pages and/or copies		⊙		
Overlay/Watermark	⊙	⊙		
Page numbering during printing	⊙	⊙		
control page start/stop and beginning number	⊙	⊙		
Roman and Arabic numbers	⊙	⊙		
Page out of Total numbering	⊙	⊙		
Page level media type and media size control	⊙	⊙		
Page level paper duplexing (mixed in single document)	⊙	⊙		
Non-printing Inserts	⊙	⊙		
Programmable eject for unused tab pages in a set	⊙	⊙		
Scale output	⊙	⊙		
Multiple Prints/Sets within a group (padding)	⊙	⊙		
Automatically save document templates for fast reprint	⊙	⊙		
save setup templates for use on other documents/jobs	⊙	⊙		
Job Build from multiple/mixed formats		⊙		⊙
RIP multiple file formats as single job		⊙		⊙
Table of Contents generator		⊙		
Cover Page generator		⊙		

Web-Based Print Ordering

On-line account setup				⊙
Graphical job ticket for selecting print settings		⊙	⊙	⊙
Automatic document conversion from 300+ application formats				⊙
Preview of submitted documents before release to print				⊙
Cost estimation with easy to administer cost/capabilities table				⊙
All transaction information and documents stored				⊙
Easy retrieval for reprint as stored or with changes		⊙		⊙
Searchable order history				⊙
Searchable repository of printable content (catalog)	⊙	⊙		⊙
On-line Template based stationery, business cards, etc.				⊙
Paypal and credit card billing options				⊙
Billing report generator for follow-up invoicing				⊙
Administrative login for setup and maintenance				⊙

Imposition

N-up Printing	⊙	⊙		
N-up Replication w/rotation for cutting	⊙	⊙		
NCR replication for 2-5 copy sets	⊙			

UltraWare Product Features

	Arranger	UltraPrint	UltraDoc/Web	AITS
Booklet layout – (Printer’s Spread)	<input type="radio"/>	<input type="radio"/>		
Multiple signatures	<input type="radio"/>	<input type="radio"/>		
Custom Printing Interface Supported Features				
Direct TIFF printing to marking engine (if allowed by printer)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Page level media type/size controls using printer’s media catalog	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Page level paper duplexing (mixed in single document)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Chapterization (chapters start on right/odd page)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Multiple subset finishing within a single document	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Multiple output destinations within a single document	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Multiple prints/sets within a group (padding)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cover mode	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Non-printing Inserts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Save job tickets for fast print-on-demand	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Job-Split based on Color/B&W content (“Color-Split”)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Archival Services				
Archive RIPPed Files		<input type="radio"/>		
Quick Archival Search (on portion of file name)		<input type="radio"/>		
Automatic Archive		<input type="radio"/>		
Store RIPPed files on any network device		<input type="radio"/>		
Content/Document Management				
Secure user access			<input type="radio"/>	
Windows authentication (AD/LDAP) for domain users			<input type="radio"/>	
UltraDoc internal authentication for non-domain users			<input type="radio"/>	
Document level security			<input type="radio"/>	
Three-Tier Hierarchical Database architecture			<input type="radio"/>	
Unlimited user-defined tables			<input type="radio"/>	
Unlimited user-defined metadata for each table			<input type="radio"/>	
Supports any file format			<input type="radio"/>	
ODBC connectivity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
MS Office/Outlook integration (store native type from app)			<input type="radio"/>	
Web-based user interface			<input type="radio"/>	
view, add, replace, edit content			<input type="radio"/>	
view, add, replace, edit bundles (folders)			<input type="radio"/>	
view, add, replace, edit collections (drawers)			<input type="radio"/>	
boolean search on metadata (keyword) fields			<input type="radio"/>	
full text indexing and search			<input type="radio"/>	
find bundles containing a given document			<input type="radio"/>	
find collections containing a given document or bundle			<input type="radio"/>	
view, add, edit user, group and document-level security			<input type="radio"/>	
submit from library to print w/job ticket			<input type="radio"/>	
submit local file to print w/job ticket			<input type="radio"/>	
Native TIFF viewer w/page navigation and zoom			<input type="radio"/>	

UltraWare Product Features

	Arranger	UltraPrint	UltraDoc/Web	AIMS
Limit/deny printing from TIFF viewer			⊙	
Enable/deny e-mail from TIFF viewer			⊙	
Case Management/Litigation support module available			⊙	
Digital Publishing/Copyright Management module available			⊙	
Forms Management module available			⊙	

File Formats Supported

TIFF open and save	⊙		⊙	
CCITT Group 3/1D	⊙		⊙	
CCITT Group 4	⊙		⊙	
Multi-image or single-image files	⊙		⊙	
Thumbnails optionally stored within TIFF	⊙		⊙	
Mix 24-bit color, grayscale, and B&W in same file	⊙		⊙	
GIF open and save	⊙		⊙	
Intel DCX open and save	⊙		⊙	
JPEG open and save	⊙		⊙	
smoothing, quality, DCT method, and baseline control	⊙		⊙	
BMP open and save	⊙		⊙	
PDF open and export through driver	⊙	⊙	⊙	
Kodak R1 Import		⊙		
Postscript import/EPS export	⊙	⊙		
HP PCL Import		⊙		
Xerox RDO Import		⊙		
controls for single or multiple image TIFF format		⊙		
merge overlays during import or import separately		⊙		
media-type mapping file for translating RDO job ticket		⊙		
Document conversion module for 300+ application formats				⊙
